MostaresII benötigt zum ordnungsgemäßen Ablauf mindestens 1MByte Ram.
Zur Installation auf Festplatte, einfach die Schublade >MostaresII< auf die gewünschte Partition schieben.
Wer genügend Speicher hat, kann so MostaresII auch von der RamDisk aus starten.
Die Ladezeiten verkürzen sich dadurch natürlich erheblich.

Dieses Spiel sollte nur auf einem 7MHz-Amiga betrieben werden. Es funktioniert prinzipiell auch auf schnelleren Maschinen, allerdings wird es dann fast unspielbar schnell.

Während des Schlußparts kann durch gleichzeitiges Drücken der Feuertaste und Halten der linken Maustaste das Programm verlassen werden.

Something Not Mentioned in the manual... Mirage disks are loaded using the internal drive of the Amiga (drive DF0:). The Amiga's internal lowpass filter is automatically disabled for the Amiga 500 and 2000 when the program begins. Also, there is a Preferences menu on the program that allows you select which devices are used to trigger sounds, as well as an option to re-enable the low-pass filter. The program now works with single drive systems.

AND SO GIDDY RETURNED TO HIS COSY LITTLE ABODE - EVERYTHING BACK TO NORMAL.. OR SO HE THOUGHT!

GIDDY PUT UP HIS ACHING AND SOMEWHAT SMELLY FEET AND TURNED ON THE T.V. COINCIDENTALLY AT THAT VERY MOMENT A NEWS FLASH APPEARED..

"WE INTERRUPT THIS PROGRAMME TO BRING YOU A SPECIAL NEWS BULLETIN' IT SAID, IN A SUITABLY CLICHED WAY.

APPARENTLY A HUGE SPACECRAFT HAD APPEARED OVER CUTESVILLE AND WAS SENDING OUT 'WIBBLE-WAVES' CAUSING NORMAL EVERYDAY OBJECTS TO GO ALL FREAKY! FIRST EYEWITNESS REPORTS DESCRIBED A HUGE FLOATING 1940'S

HOW GOES???

THE STORY.

IT WAS A BRIGHT AND INEVITABLY ENOUGH SUNNY DAY IN CLICHELAND. GIDDY THOUGHT HE'D GO OUT FOR A NICE STROLL. HE HAD JUST LEFT HIS HOUSE WHEN..... CRUMP?!? EVERYTHING WENT ALL WEIRD. THE WORLD BEGAN TO SPIN AROUND HIM AND LIGHTS FLASHED BEFORE HIS EYES.

'SHOULD HAVE GIVE THE DIAMOND WHITES A MISS' HE MUTTERED?

BUT NO.. REALITY WAS FOLDING IN ON ITSELF.. THIS WAS NO ILLUSION. 'BUT OF COURSE! I MUST HAVE ENTERED A TIME SPACE INTERFACE' HE THOUGHT. AND HE HAD.

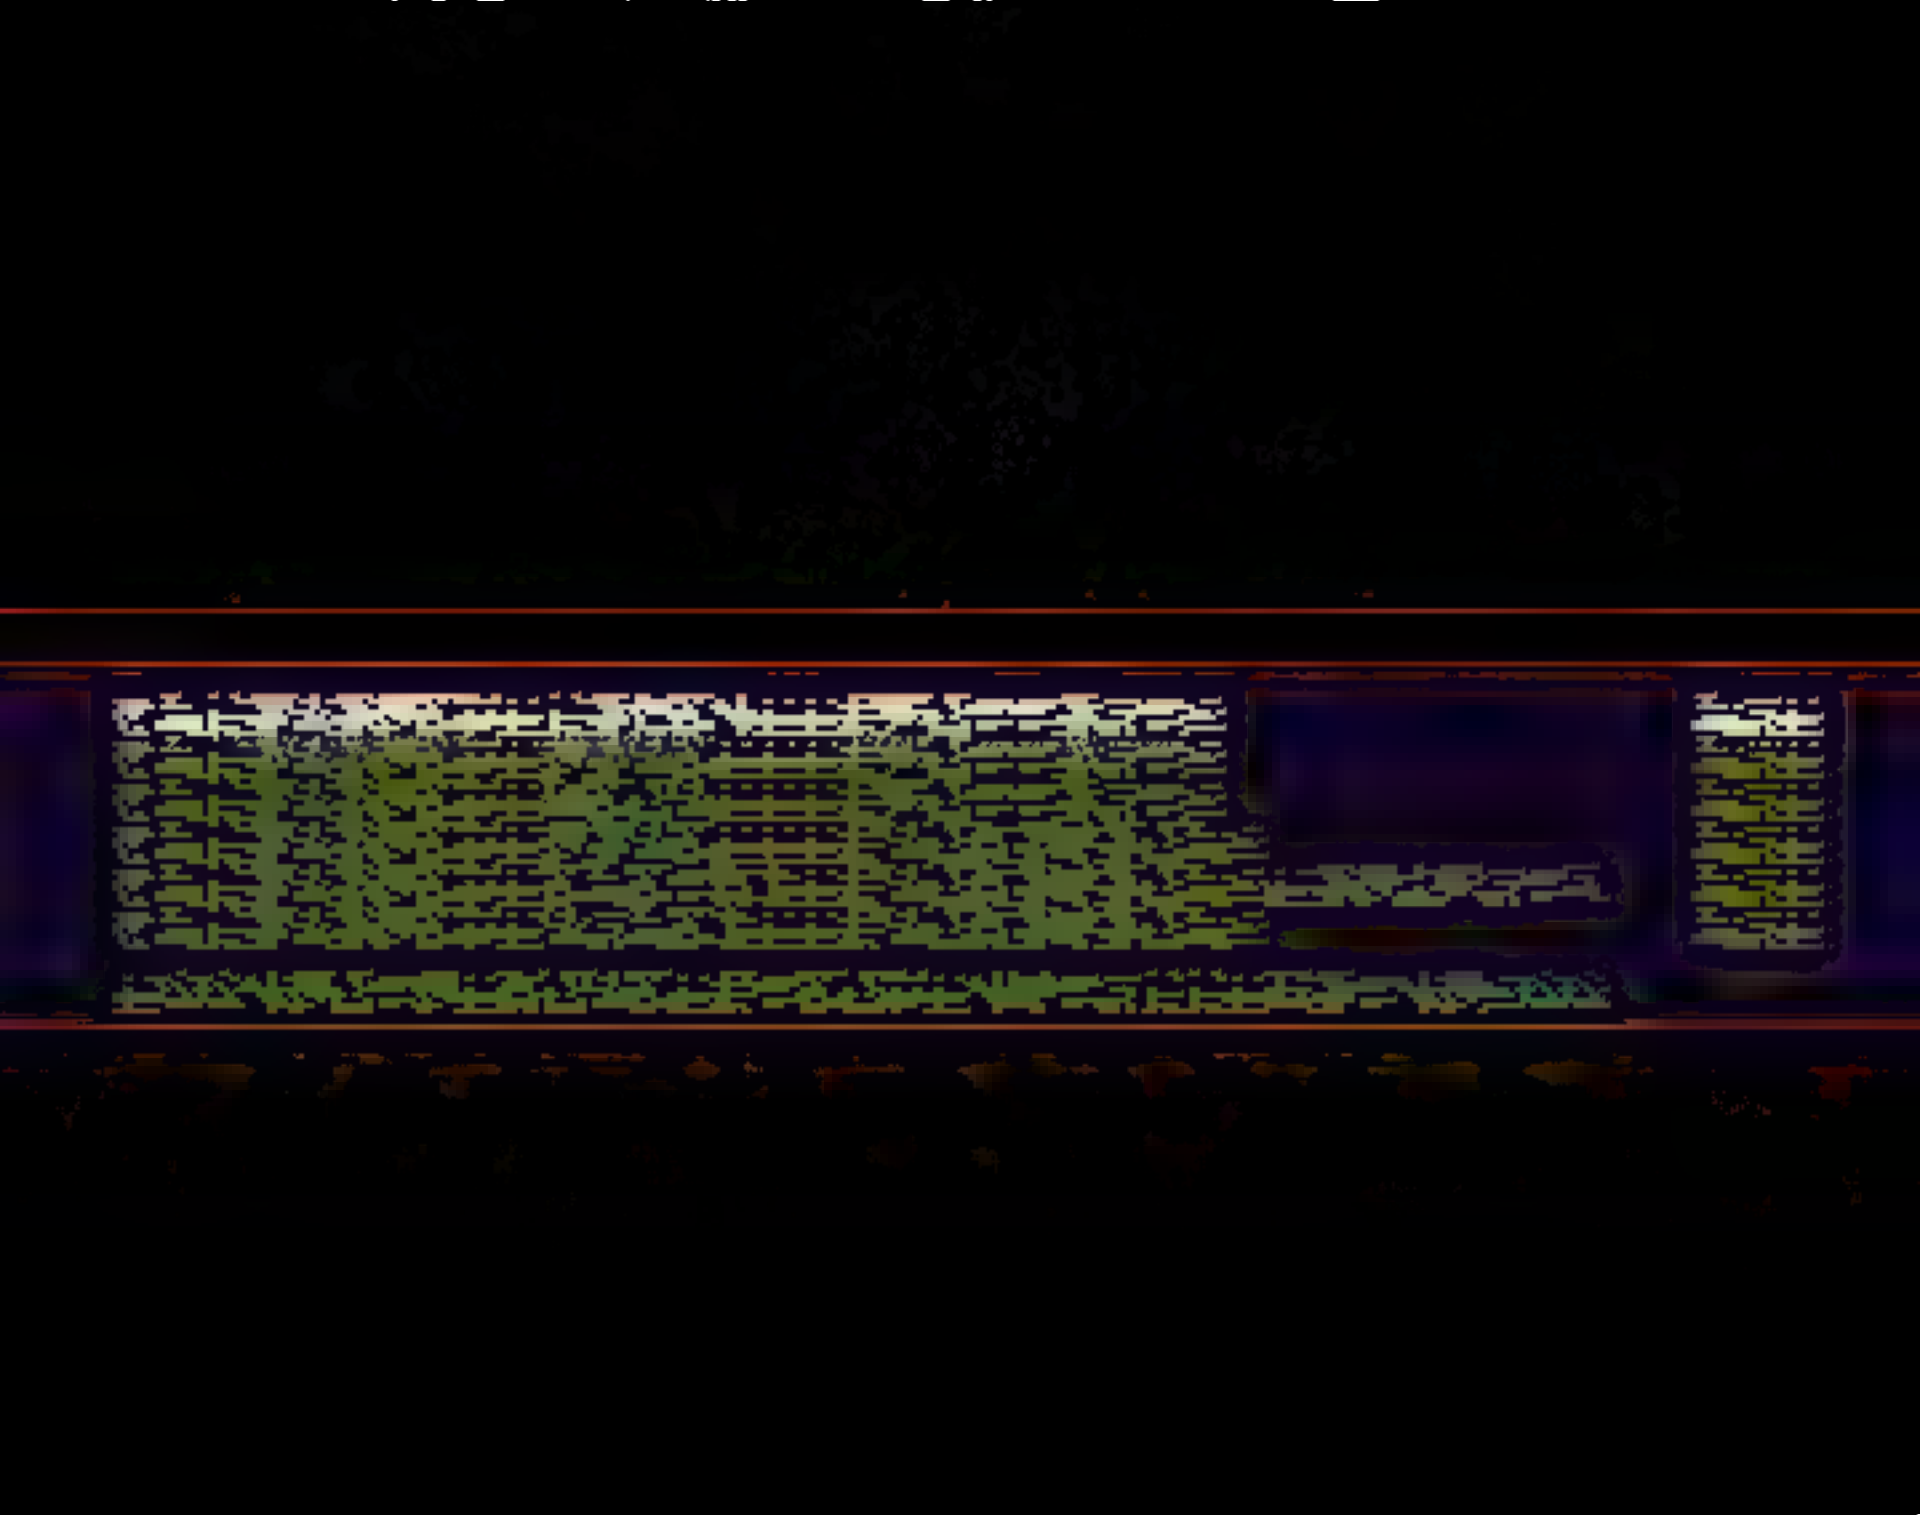

SUDDENLY THE CHAOS STOPPED AND HE FOUND HIMSELF IN A STRANGE FOREST. 'BLIMEY!' HE GASPED. 'THIS WOULD MAKE A GREAT PLOT FOR COMPUTER GAME IF IT WASNT SO CORNY!' CHECKING HIS BEARINGS ON THE MORNING SUN HE MADE OFF ON HIS QUEST HOME....

The aim is to reach the
top of the garden wall
before the green beetle
However, the wall consists
of a hundred levels, each full
of baddies that will gladly
eat you for lunch, and baby
grubs that have to be
collected. Once
all the grubs are safe the
teleporter will be activated
and you may proceed
onto the next level.

PD VERSION

I HAVE RELEASED THIS VERSION OF CROSSOVER INTO THE PUBLIC DOMAIN SO THAT PEOPLE CAN DESIGN LEVELS AND SEND THEM TO ME. THE REASON I HAVE DONE THIS IS BECAUSE I HAVE NOT GOT TIME TO DESIGN MY OWN LEVELS. THERE ARE EIGHT LEVELS ON THE DISK SO THAT YOU CAN PLAY THE GAME TO SEE WHAT IT IS LIKE. IF YOU DO DESIGN LEVELS, SAVE THEM OFF FROM LEVEL NINE UPWARDS AND SEND THEM TO ME STATING WHICH LEVELS YOU HAVE DESIGNED. IF YOU SEND ME MORE THAN FIVE LEVELS I WILL USE THEM IN THE NEXT RELEASE OF CROSSOVER AND PASS ON THE NEW VERSION TO YOU FOR FREE. IF I GET ENOUGH LEVELS TO FILL A DISK I WILL RELEASE IT INTO THE PUBLIC DOMAIN WITH CREDITS FOR THE PEOPLE WHO DESIGNED THE LEVELS.

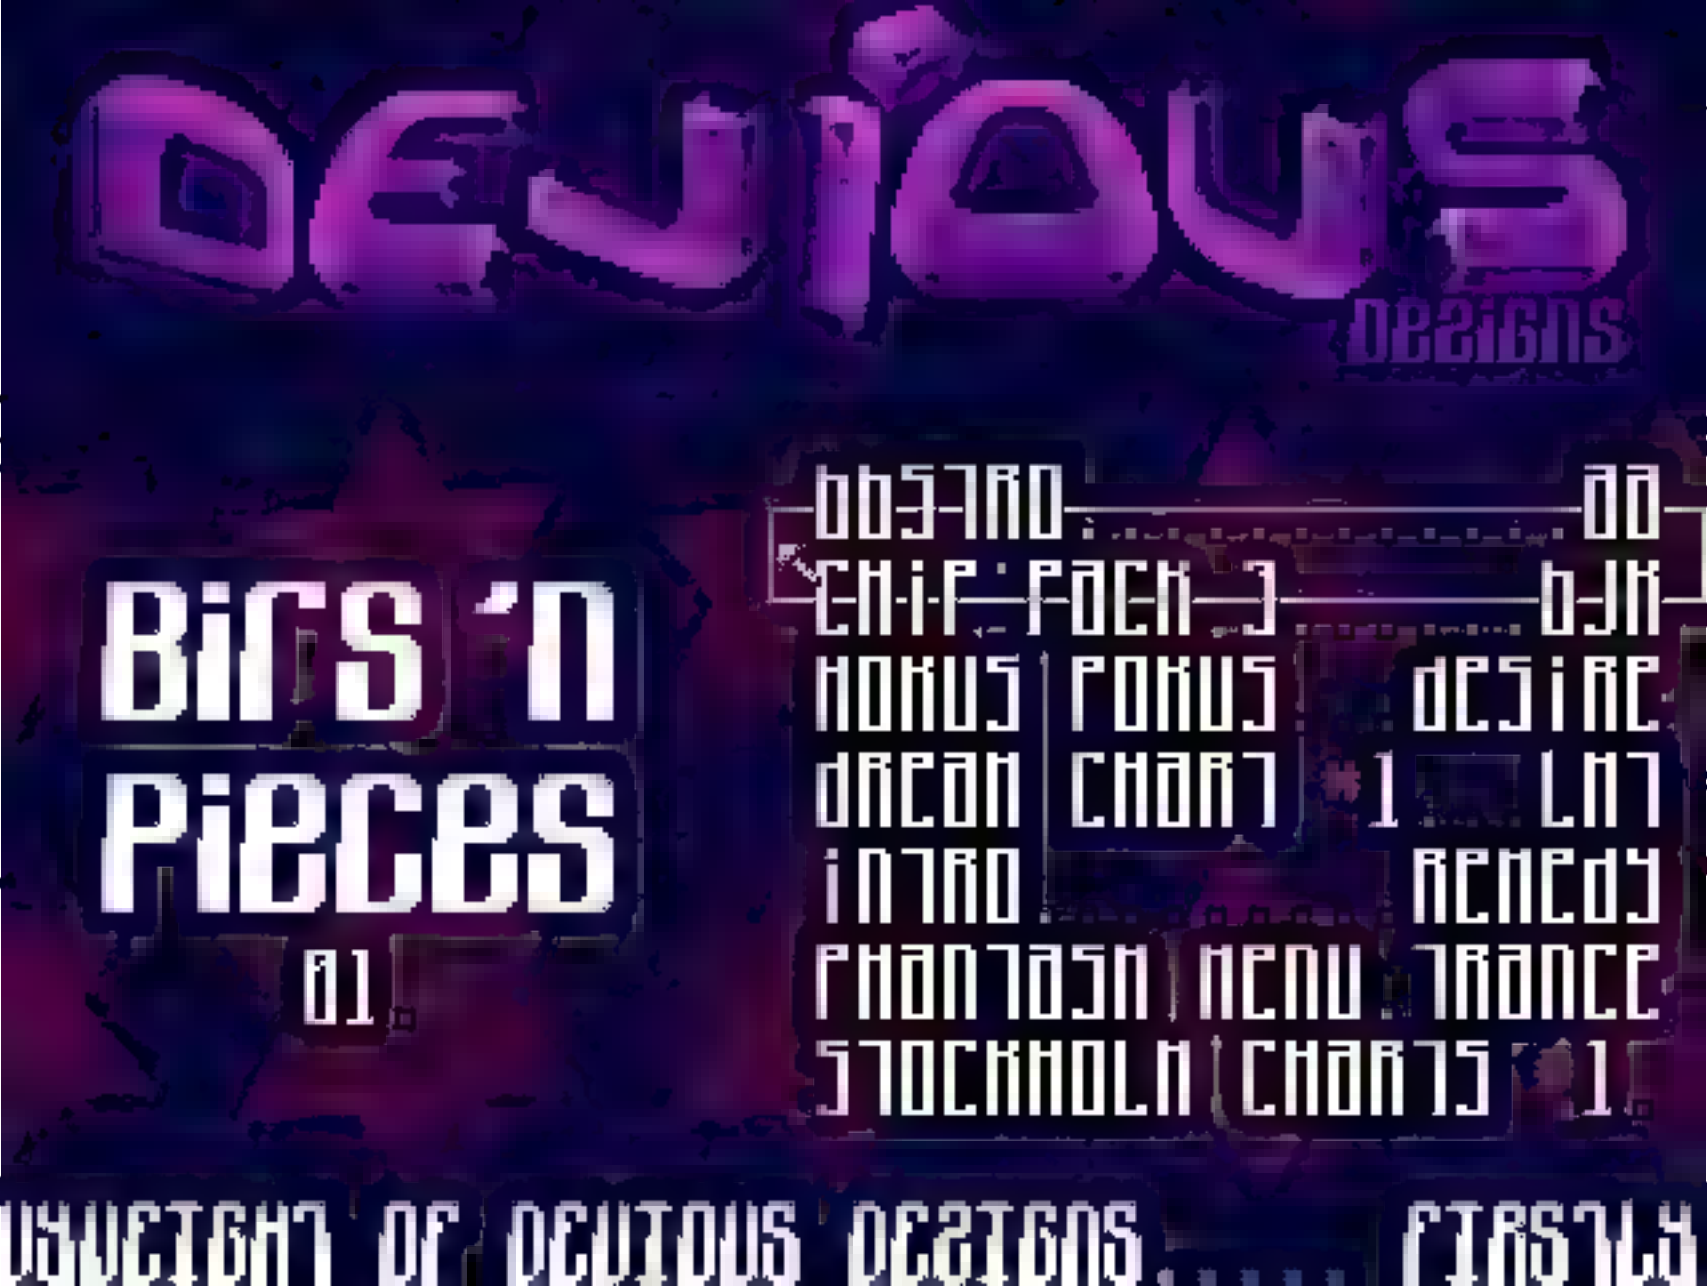

SEND A BACKUP OF THE DISK WITH THE LEVELS ON, ALONG WITH YOUR NAME AND ADDRESS TO:

MostaresII benötigt zum ordnungsgemäßen Ablauf mindestens 1MByte Ram.
Zur Installation auf Festplatte, einfach die Schublade >MostaresII< auf die gewünschte Partition schieben.
Wer genügend Speicher hat, kann so MostaresII auch von der RamDisk aus starten. Die Ladezeiten verkürzen sich dadurch natürlich erheblich.

Dieses Spiel sollte nur auf einem 7MHz-Amiga betrieben werden. Es funktioniert prinzipiell auch auf schnelleren Maschinen, allerdings wird es dann fast unspielbar schnell.

Während des Schlußparts kann durch gleichzeitiges Drücken der Feuertaste und Halten der linken Maustaste das Programm verlassen werden.

In diesem Spiel dreht sich wieder alles um die PD-linge, die erneut einen schweren Parcours zu bewältigen haben.
Sie befinden sich im Spiegel-Labyrinth, welches hauptsächlich aus drehbaren Spiegeln besteht,über die die PD-linge laufen können.
Sie müssen den Ausgang links oben erreichen. Dies gelingt nur indem sie die Spiegel als Rampen benutzen.

Und Ihre Aufgabe ist es nun die Spiegel per Mausklick (rechts o. links) in die entsprechende Stellung zu bringen.

Um alles etwas leichter zu machen, ist ein knappes Zeitlimit vorgegeben.

Dies Programm darf nur unverändert weitergegeben werden, und für

Font Farm - by Gary Henderson

Welcome to the Font Farm compiled by Gary Henderson in March 1992. This disk contains a huge collection of 55 different fonts. There are also a couple of Utilities to design,assign and view fonts on this disk. Hope there is something here that you can use. This disk is released as Public Domain Software so do with it as you please. Thanks must go to all the people that drew the fonts you will know who you are (I don't as there is no way to leave any names on fonts.)

Read the Readme file on this disk for more information.

Font sizes vary from the heights of 161 pixels to a micro sized 6.

M*A*S*H

This game is NOT a Wormz clone!!!

The idea behind the game is entirely my own
I have been developing the game engine and the gameplay
for nearly two years as of this release
The reason I point this out is that in a recent preview of
Team 17's "Wormz" it was described as a "Cross between
Lemmings and Cannon Fodder" Now, maybe this an
amazing coincidence, but that's exactly how I described
M*A*S*H's predecessor, Ant Wars in my covering letters
to various P.D libraries Because the game was P.D
I imagine I can't complain, but DO NOT call M*A*S*H
a Wormz clone, it's the other way around!

CROSSOVER

PD VERSION

I HAVE RELEASED THIS VERSION OF CROSSOVER INTO THE PUBLIC DOMAIN SO THAT PEOPLE CAN DESIGN LEVELS AND SEND THEM TO ME. THE REASON I HAVE DONE THIS IS BECAUSE I HAVE NOT GOT TIME TO DESIGN MY OWN LEVELS. THERE ARE EIGHT LEVELS ON THE DISK SO THAT YOU CAN PLAY THE GAME TO SEE WHAT IT IS LIKE. IF YOU DO DESIGN LEVELS, SAVE THEM OFF FROM LEVEL NINE UPWARDS AND SEND THEM TO ME STATING WHICH LEVELS YOU HAVE DESIGNED. IF YOU SEND ME MORE THAN FIVE LEVELS I WILL USE THEM IN THE NEXT RELEASE OF CROSSOVER AND PASS ON THE NEW VERSION TO YOU FOR FREE. IF I GET ENOUGH LEVELS TO FILL A DISK I WILL RELEASE IT INTO THE PUBLIC DOMAIN WITH CREDITS FOR THE PEOPLE WHO DESIGNED THE LEVELS.

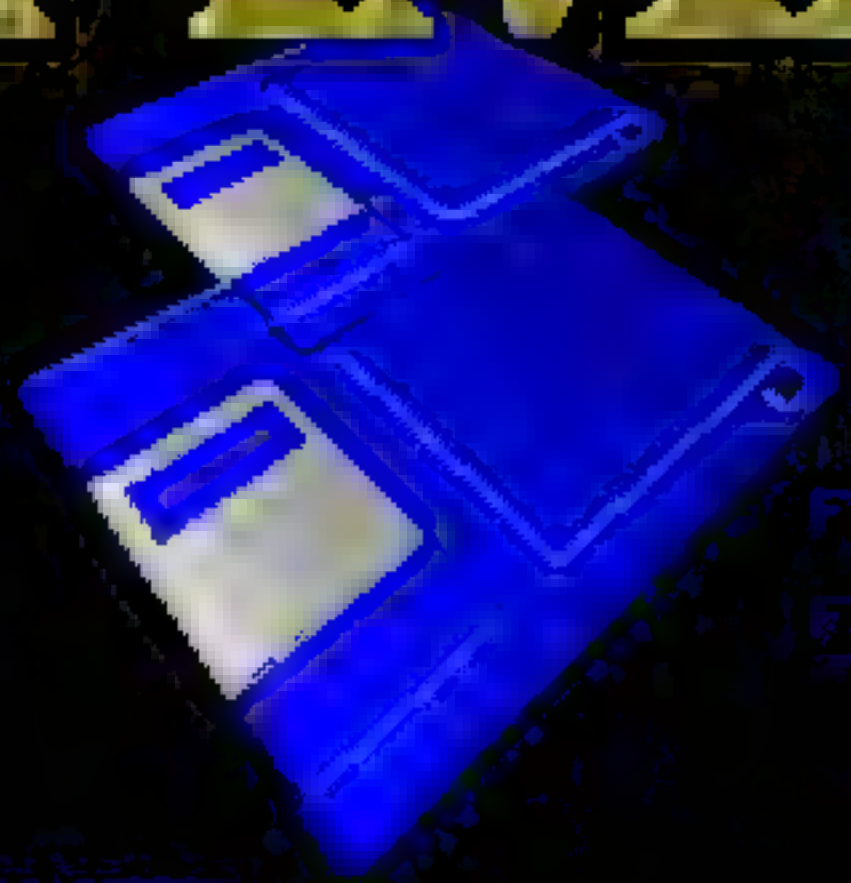

SEND A BACKUP OF THE DISK WITH THE LEVELS ON, ALONG WITH YOUR NAME AND ADDRESS TO:

DAVE CLARK

IMPORTANT MESSAGE FROM BS1-PARDIE :

THIS MUSIC-SELECTOR WAS TO BE SPREADED AT THE BAMIGA SECTOR ONE COPY PARDIE, BUT I HAD TO REMOVE SOME ERRORS FROM THE ORIGINAL DISK, AND 10 MINUTES BE-FORE IT WAS FINISHED, THE DUTCH COPS ARRIVED AND EVERYTHING WAS PANIC'.....

ANYWAY, WE GOT OUT WITH ALMOST ALL OUR DISK, EXCEPT FROM SOME DUDES, WHO PUT-TED SOME OF THEIR DISK AT THE FLOOR, AND THEN SMASHED 'EM, COZ THEY WHERE FULL OF ILLEGAL GAMES E.T.C.....

IF THIS PARTY HAD CONTINUED, IT COULD HAVE BEEN VERY GREAT, BUT AS MENTIONED ABOVE, THE COPS ARRIVED, AND THE PARTY WAS OVER. TO BAD...?!?

I HOPE YOU ENJOY THIS MUSIC-SELECTOR, AND OUR MEGADEMO WILL VERY SOON 'HIT THE ROAD.....'

Hi Freax !

I hope you enjoy my "doomy" Soundtracks. By the way, it should not be very EVIL. I think it's funny and something different to do that.

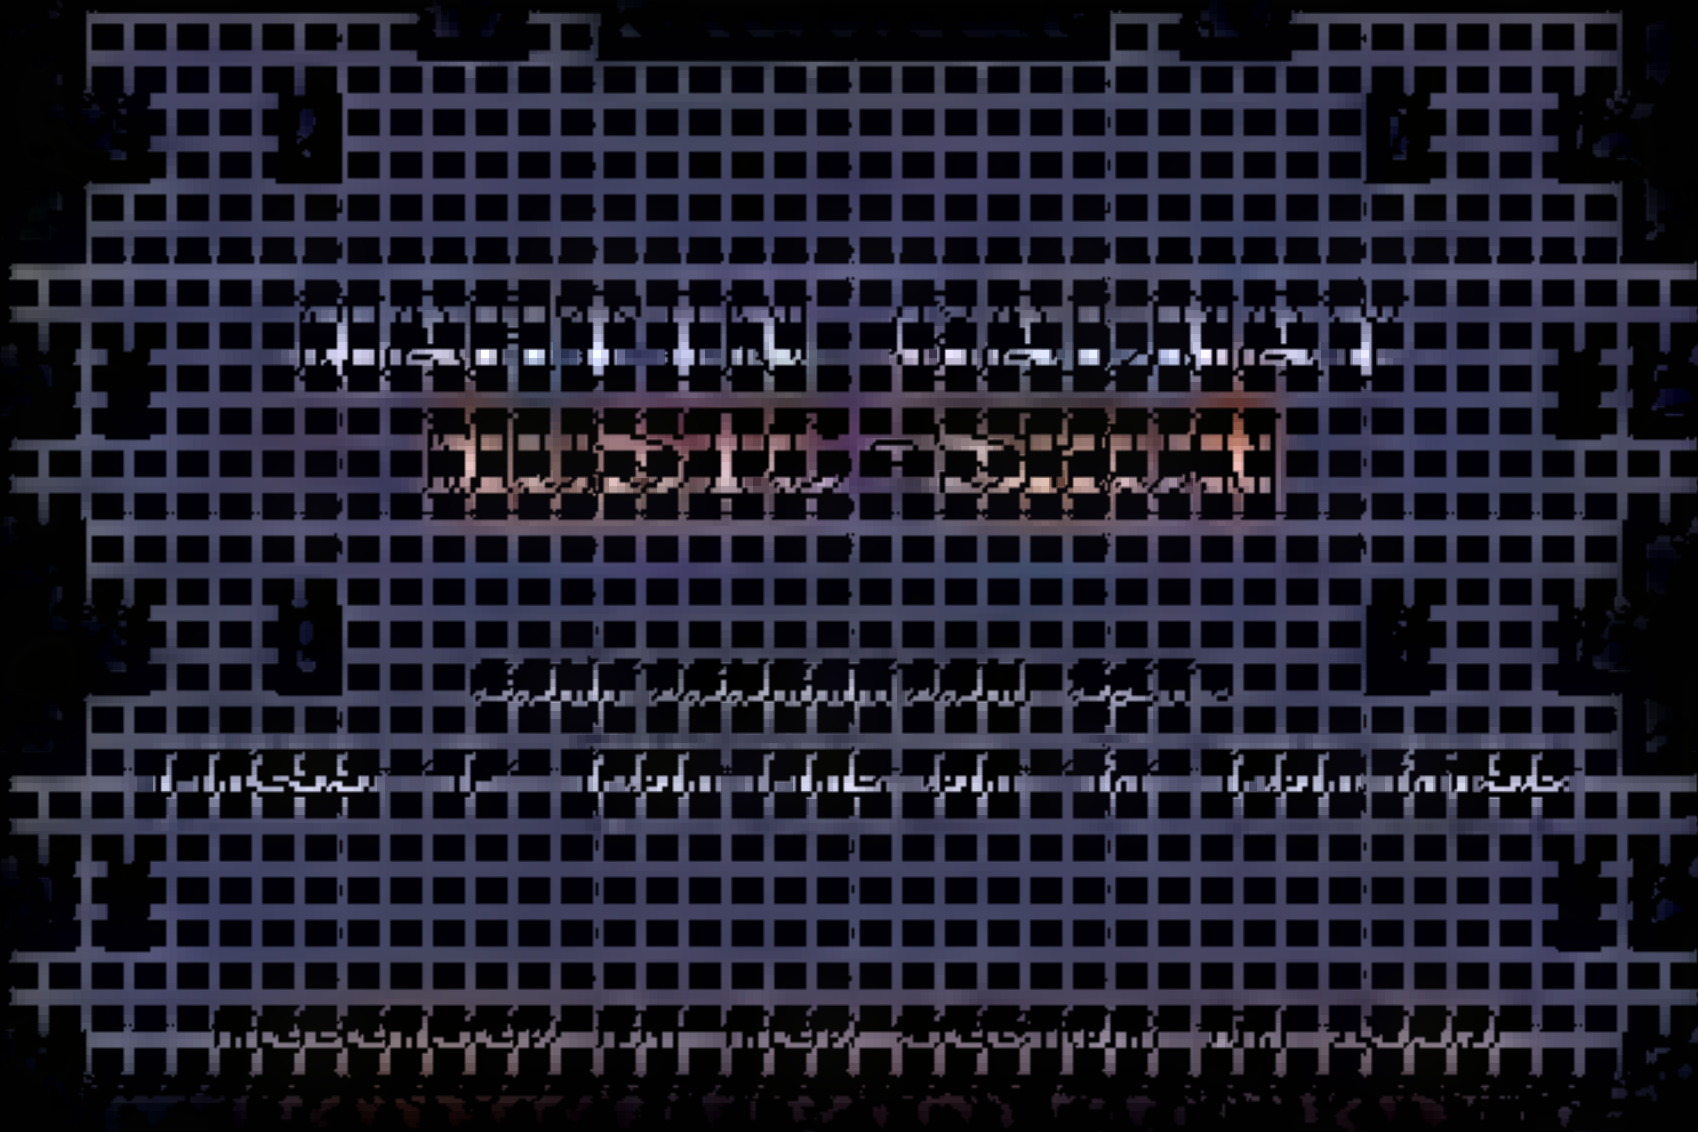

The whole Demo was a "One Man Production" so don't care about my GFX... It's hard, but i can not draw very well! I'm searching for a cool Grafican to make some different productions. So send me a letter if you are interested!!!!! I'm also interested in swapping good Sounds and Demos so..... DO IT and write to my Adress:

ARUS

Separated from his wife and children by a tremendous earthquake, Og the caveman must make his way along the prehistoric landscape in a desperate attempt to rescue them. Initially unarmed, Og can occasionally find a stone axe with which to fend off the lethal creatures he will encounter along the way.

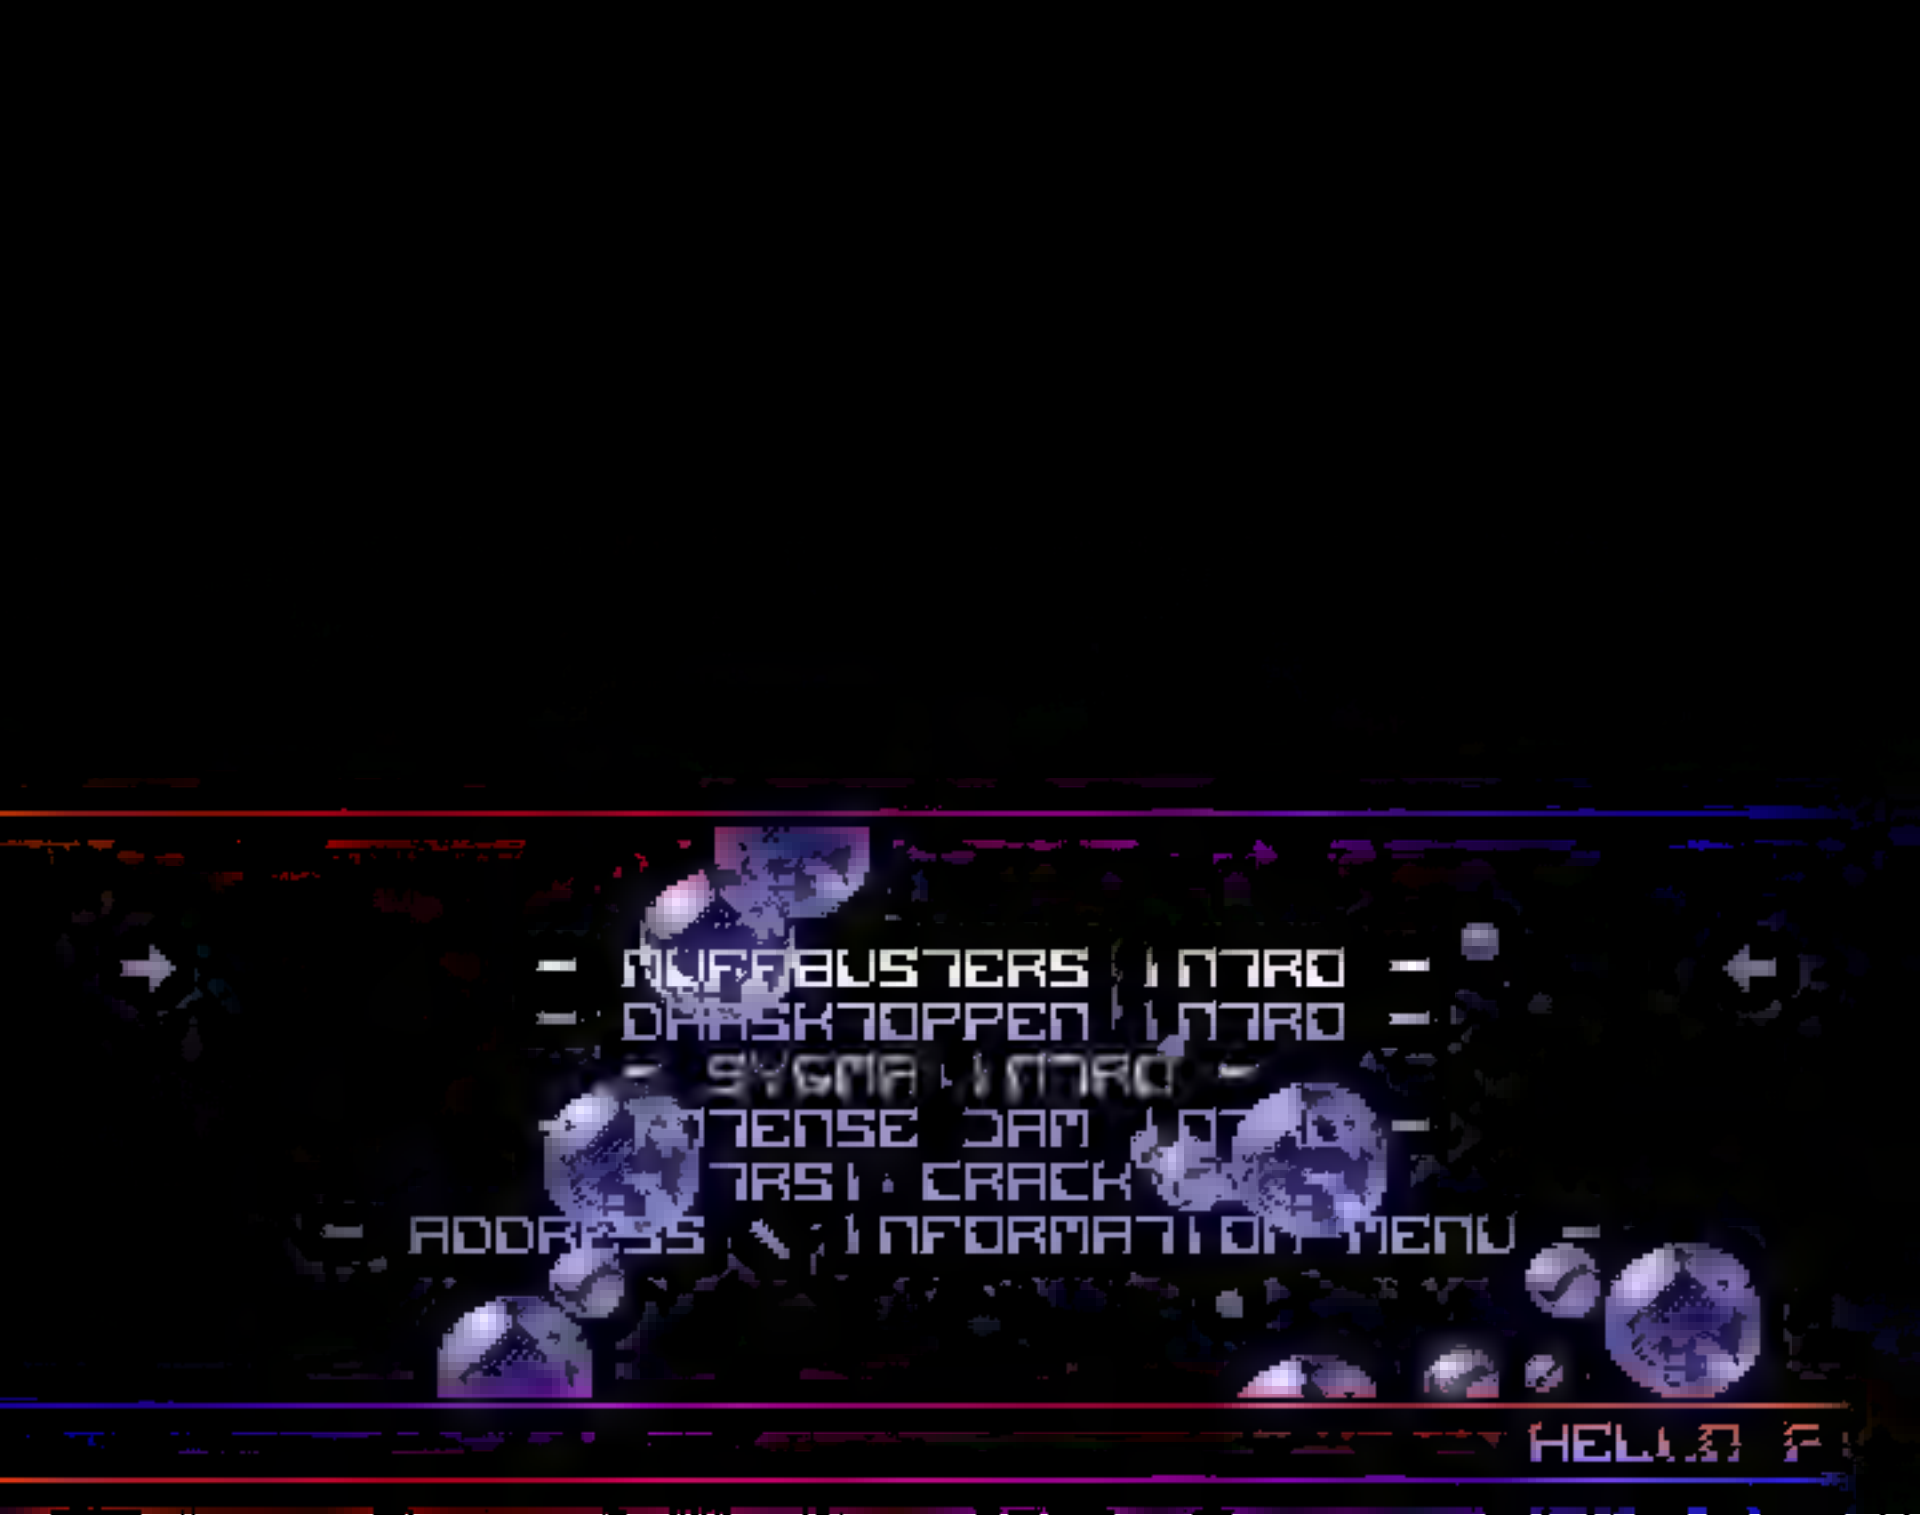

Darkness will begin to fall if Og takes too long, making his task much harder.

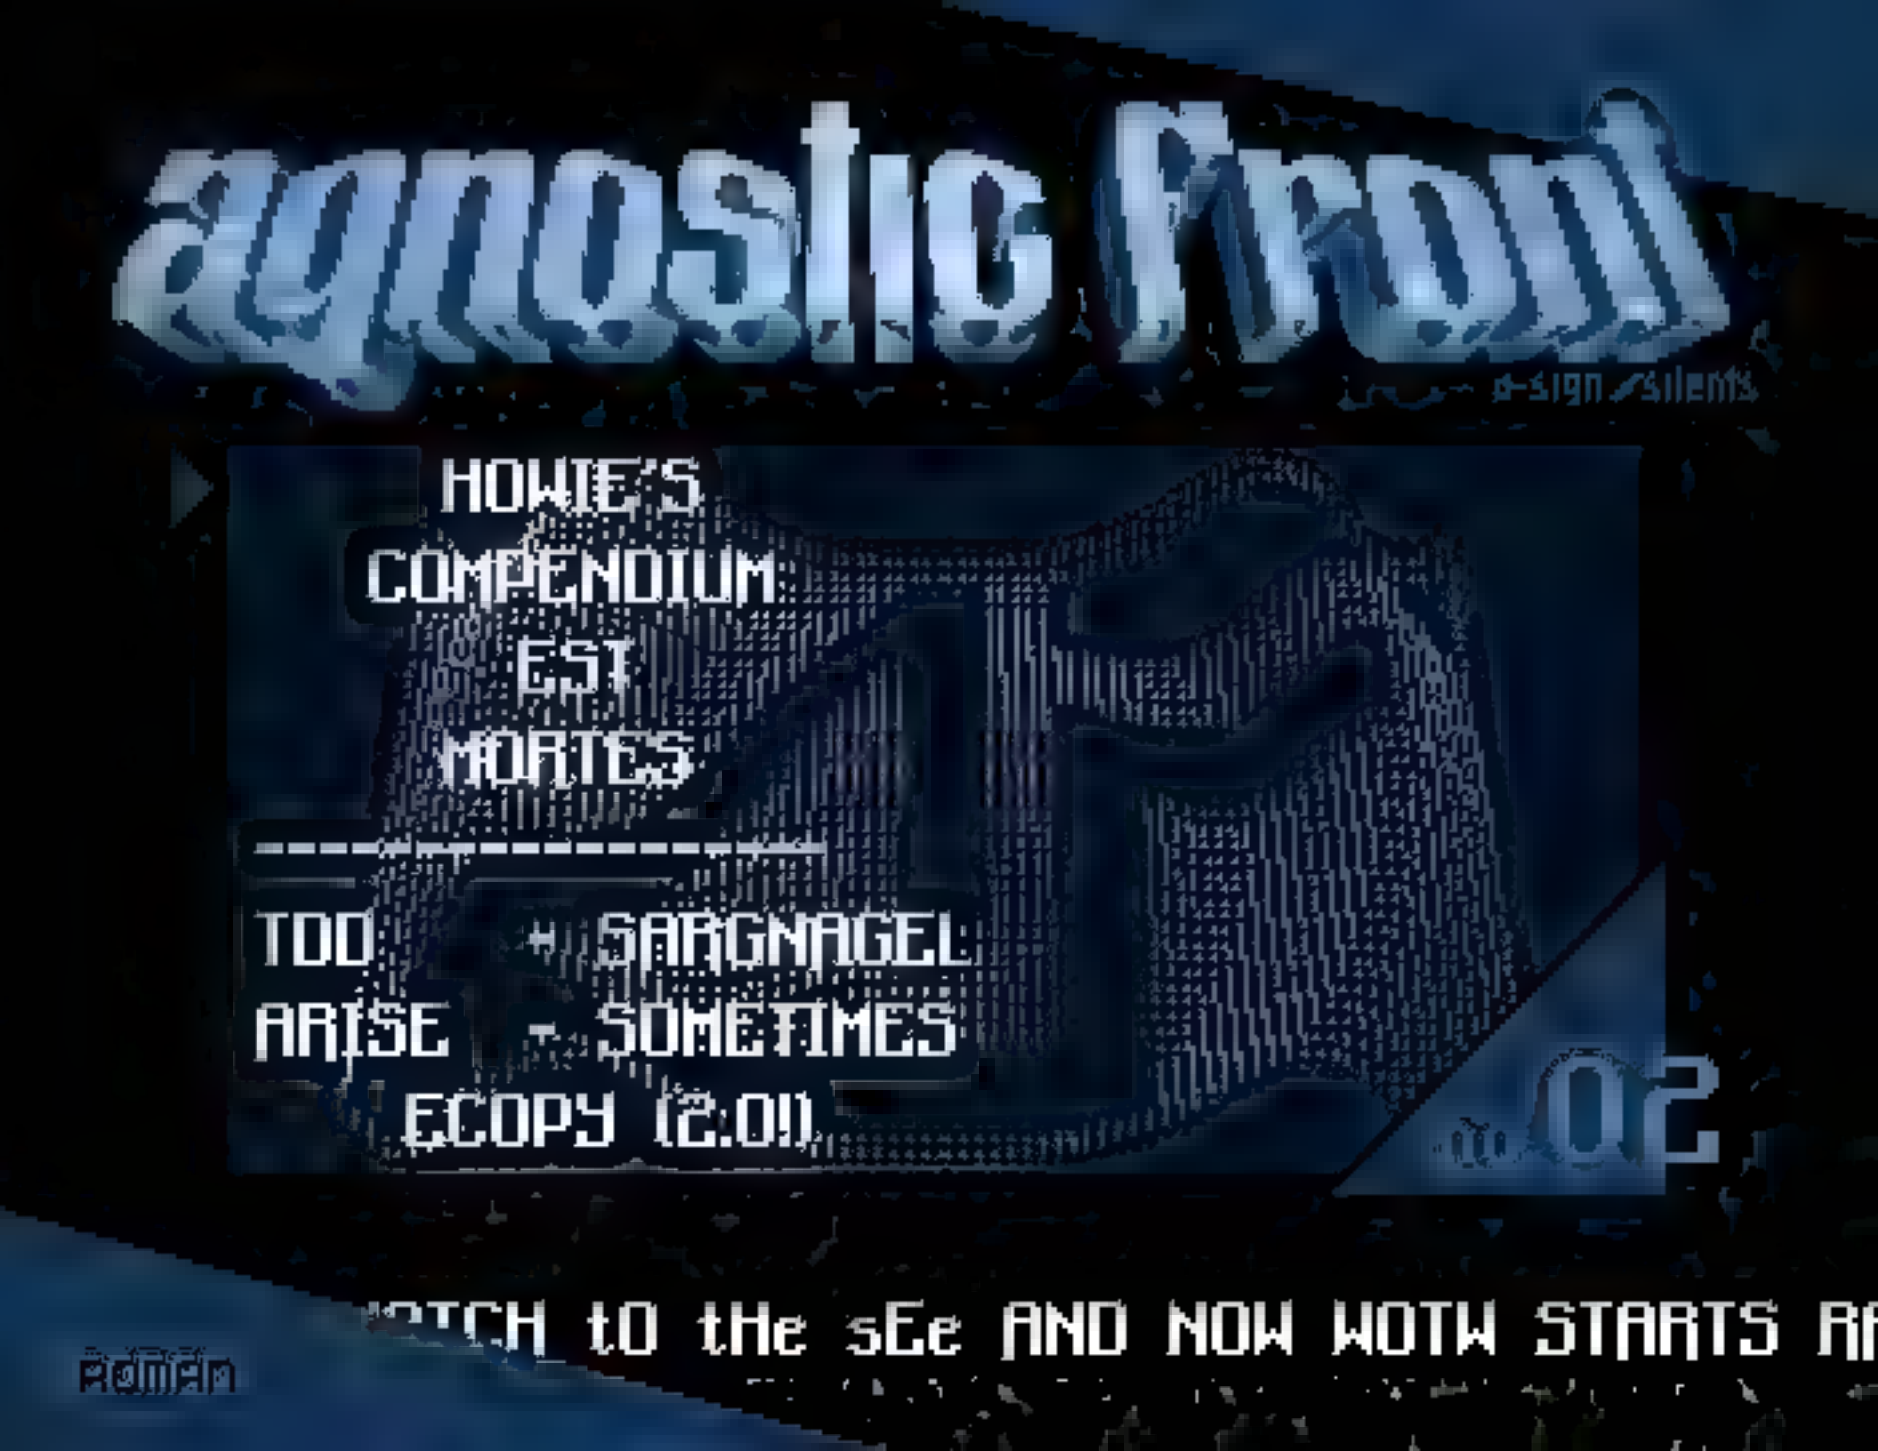

Collecting food as he goes might make his journey seem quicker, but it is much better if Og can find and harness a friendly dinosaur and ride speedily to save his family.

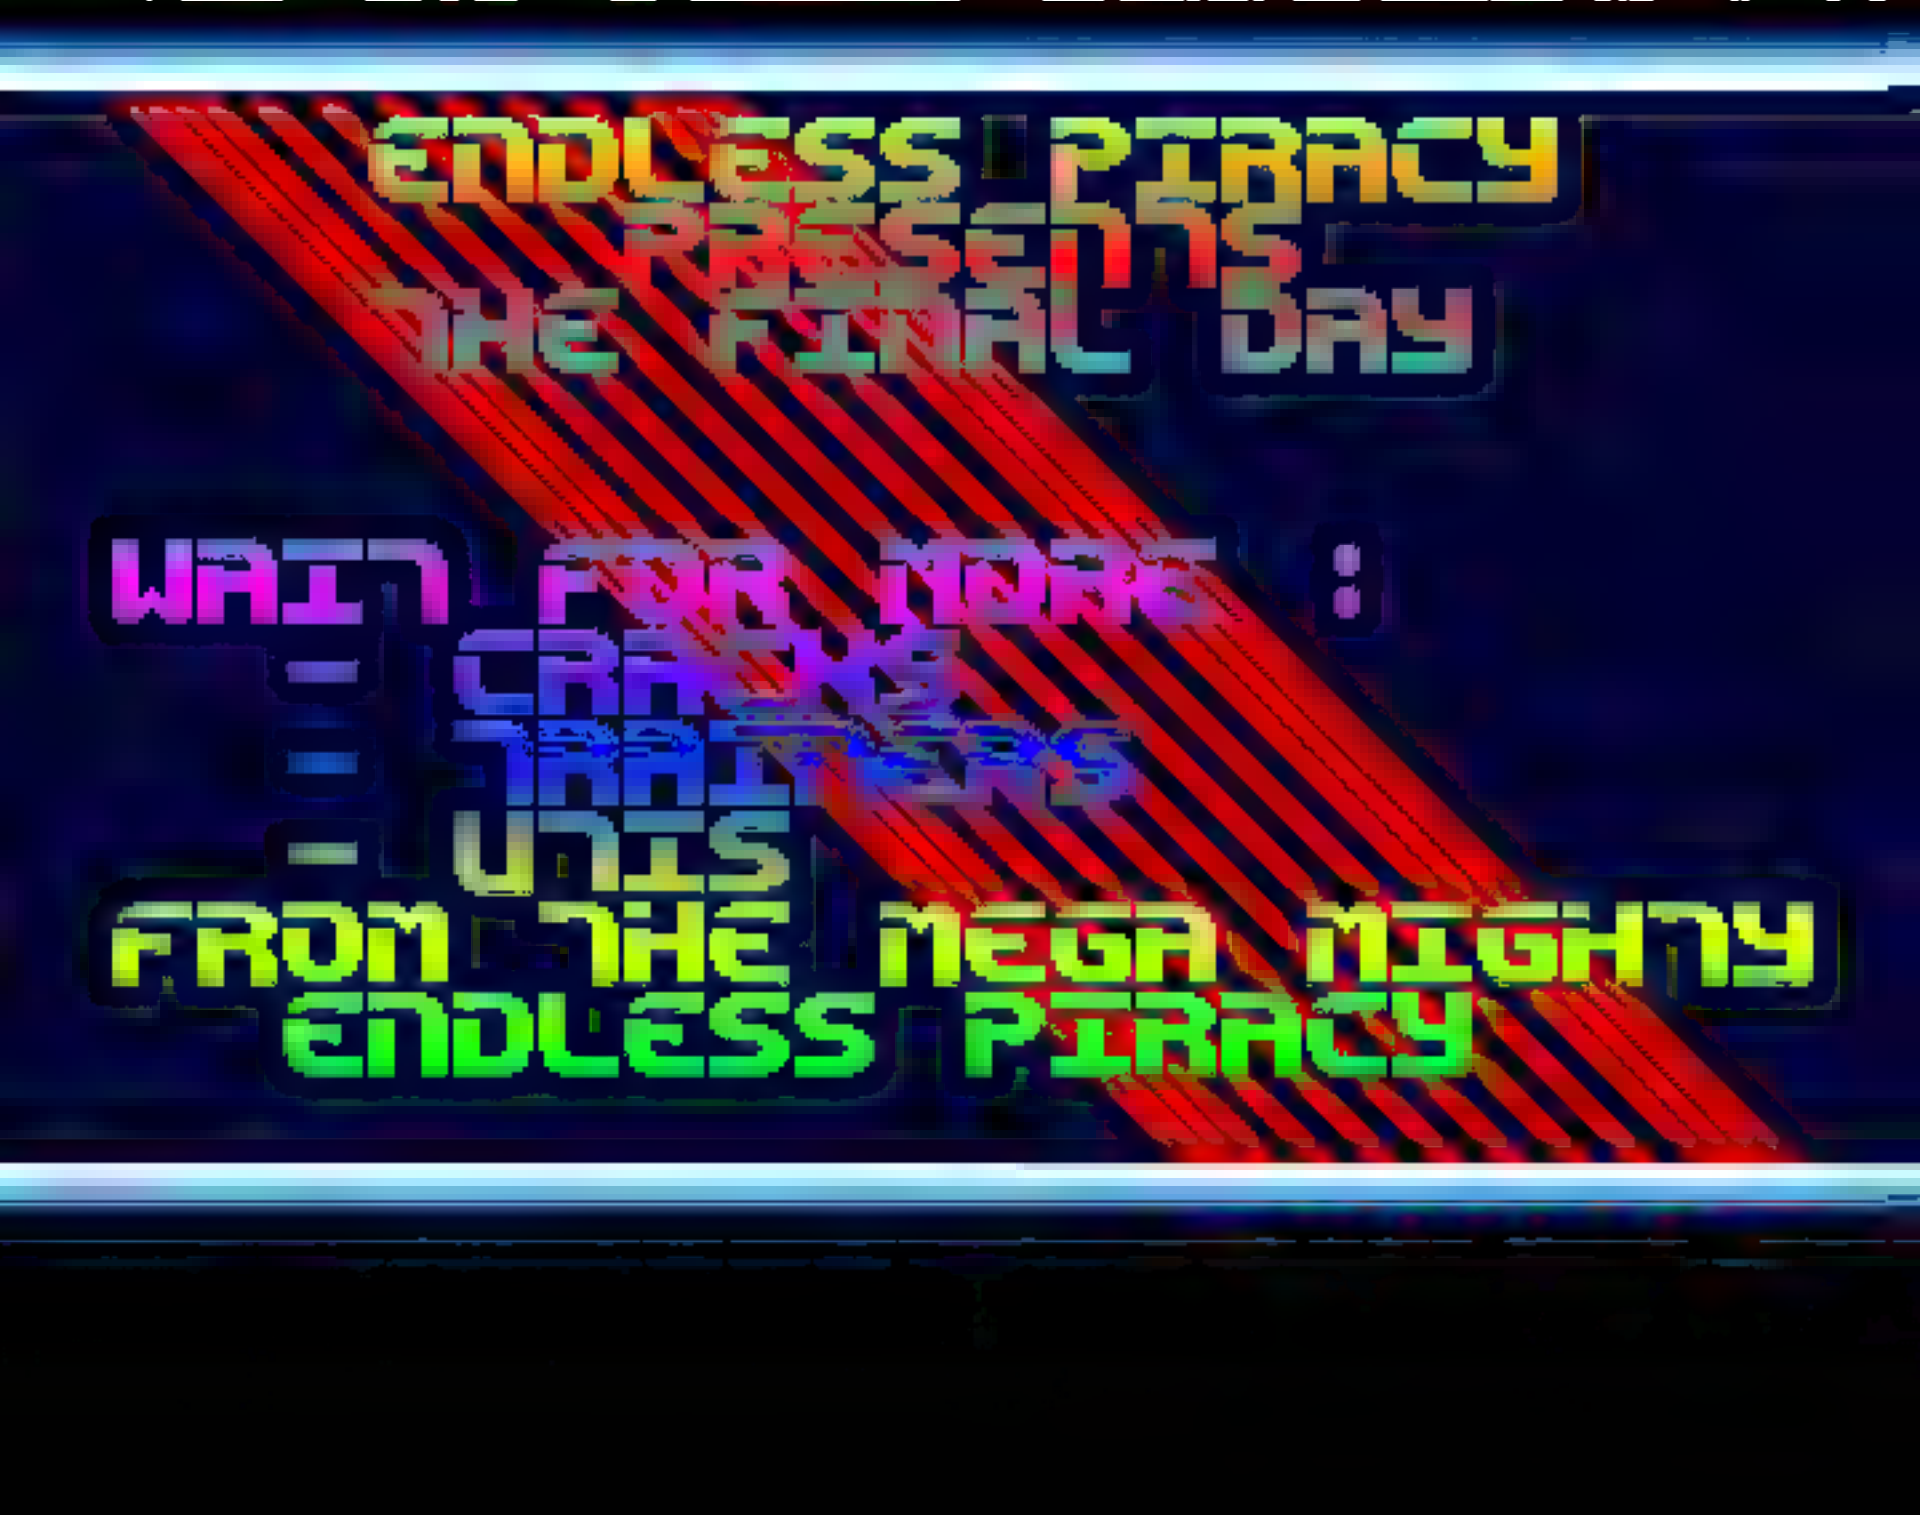

If he loses a life, Og will start back at the last purple bird he has passed.

Hitting these birds with an axe will be rewarded with extra time.
